The 10 Commandments of Safety

1. Thou shall **value the safety of the workforce**; profit or production shall not be thy primary motivation.
2. Thou shall not permit a fatal accident to occur out of poor safety planning or failure to **recognize and control hazards**.
3. Thou shall **do an honest days labor** for an honest days pay; thou shall not loaf nor serve personal interest.
4. Thou shall **honor thy Safety Director** and Supervisor: that thy days may be long and safe in the craft that you have learned.
5. **Six days may you labor** and do all thy work, but on the seventh day thou must rest and spend time with your family.
6. **Thou shall not commit an Unsafe Act** or allow an **Unsafe Condition** to remain in the work place.
7. **Thou shall not perform any sexual harassment acts** or lust after thy employer's female workers.
8. **Thou shall not use foul language** in the work place, for the EEO commission shall not hold you guiltless that uses such language.
9. **Thou shall not steal** company property.
10. **Thou shall not covet** or desire **thy co-workers belongings**.
